

The Power of 5 Minutes

Collaborative Planning

Dear Wonderful NDIS Participants,

We're thrilled to announce a new initiative starting this February, transforming the final 5 minutes of your support sessions into a dynamic hub of engagement and progress.

We believe that empowering you during and up to the last minutes of the service will enhance the overall impact of our ongoing support.

What's In It For You?

1

MORE ENGAGEMENT

Say goodbye to dull endings!

We're turning these final moments into lively chats that keep you involved and excited.

2

PROGRESS IN ACTION AND YOUR INDEPENDENCE

In your quick, dynamic discussions, we'll work together to plan your next steps based on what you want and need.

3

CHOICE AND CONTROL

Your voice matters.

With you in the driver's seat, your preferences, opinions, and aspirations, will shape your next support session and work towards your goals.

4

ACCOUNTABILITY & PLANNING

We're serious about helping you succeed.

Discussing your progress and planning ahead ensures every session is just right for you.

Whether a small step or a big leap, we're here to celebrate your achievements.

For questions or clarifications, please do not hesitate to reach out.
